Robert Jefferson  
330 First St.,  
New Orleans

November 23, 1962

Dear Canine College, Inc.

My name is Robert Jefferson and I have been introduced to your most wonderful aid fund for the blind by some of my friends, who are also acquainted with your fund aid for the blind, I was riding the street bus yesterday and I was talking to a man who lived in Waveland, Miss., and he told me about how helpful you all are

about helping the blind. You see I am blind and also my wife. I pray the Lord that if this is true please tell me what steps that I may take in order to get some work. If it is possible, I would thank God for your help very much. You see I would like to have a dog to help guide me to and from work. I haven't been able to because the little money I receive will not transport me to and from work and if your fund can help me and my family for Christmas to get clothing for our children and toys. If this information is true that I have received please write me and let me know.

Yours truly  
Robert Jefferson

The Standard Block Co. of Gulfport, in answer to this letter, donated a check for \$25.00. Any one who desires to help this worthy cause, may mail checks or cash to "Canine College, Inc." in care of the Hancock County Eagle and it will be forwarded to the proper parties.

This is your chance to do a good deed for Christmas.

## CAREER TALKS AT HANCOCK NORTH CENTRAL SCHOOL

Richard Knowlton, photographer and reporter for the Piasune Item, spoke to the student body of Hancock North Central Friday, December 7, about careers in the newspaper field. For those with a nose for news, flair for excitement, and a constant "why" on their lips, the newspaper career will provide gratification.

He urged students who are interested in this career to start as early as possible writing for the school paper and, or getting a job with the local newspaper, even if there is no salary attached to it.

A college education with a major in journalism or a liberal arts degree are almost prerequisites today for the journalist. There should be many opportunities for both men and women in this field because newspapers are expected to share in the growth of various publishing enterprises.

Mrs. Marjorie Cuevas, third grade teacher at HNC, stressed the many rewards (other than financial) a teacher receives, the continually increasing need for additional teachers, and the satisfaction of constantly learning more about the subject closest to each one's heart, when she spoke to the students of HNC on Tuesday, December 11. She cited her personal experience of 16 years of teaching in every rural county school, citing many instances which had proved both challenging and rewarding.

## WILL TEST BIG ROCKETS IN HANCOCK

JACKSON, Miss. — A National Aeronautics and Space Administration official said Tuesday the world's largest known rocket engines will be tested in south Mississippi by 1965.

Clarence L. H. Webb, project manager for the Mississippi test facility construction in the Saturn-Nova rocket program, said "the primary purpose of the Mississippi test facility is to prove, through testing, the quality and reliability of the vehicle stages."

"Every stage of every vehicle with a manned mission will be test-fired time after time, and nearly all of these will be tested at the Mississippi test facility."

Webb, a native of Mississippi, described the planned moon shot and the state's role in the shot with its Hancock County test site. The saturn will stand 350 feet from base to top and will provide a 7 1/2-million pound thrust.

A 140,000 acre Mississippi tract has been designated for testing the giant rocket engines.

## Katcha Ketchum

We wanted cold weather and we got it over the past week starting with a freeze on Wednesday. With practically all hunting seasons open hunters are in their glory. Smart hunters take all precautions. Beginners should follow their example. Accidents of course can happen but can be avoided by being careful. We have written many times the care of firearms and how to use them, for instance, keep guns unloaded in cars, keep safety on at all times; lay gun down while climbing fences; don't fire gun until you see the object you are hunting. Liquor and shells don't mix. Take your little nip when you are safe at home.

An unusual accident happened last Sunday when David Carter was thrown out of a boat in Bayou Lafourche when he hit something with the motor. David, gun, hip boots, hunting coat and shells landed in the water. He managed to get to shore to find that the boat had crossed to the other side of the bayou and stopped. Swimming the bayou he retrieved the boat. In the scuffle the gun was lost in the bayou but was recovered Monday with the help of August Rauxet. David was a scared but wiser hunter.

With the first part of the deer season closed in counties of District One, Nolan Ladner, local Game Warden, reported up to now 12 deer have been killed in Hancock County and 376 in all counties of District One.

The second part of the deer season will open on December 26 and close on January 8th. There are quite a number of deer hunters in Hancock who usually get their share.

It was quite a pleasure to chat with Theo Tudury and Warren McDaniel regarding hunting and fishing of days gone by. Theo was telling of catching a market basket of soft crabs and selling them at 25 cents for 3 dozen. Now a days a soft crab sandwich costs 75 cents. Mac and Theo were good baseball players when young men. Now they can only talk about the game, like yours truly.

Now is the time of year for all sports to be smart drivers and help make Christmas a real one. They should adjust speed to conditions. Never drive while drinking. Give the other fellow a sporting chance. These rules are the advice of the New Orleans Police.

Scout Troop 137 will enjoy overnight camp Friday at Camp York.

Members of the Troop are Messrs. C. C. McDonald Jr., Gene Clark and William Whitfield. Mrs. Clark will also accompany group.

## USM FOUNDATION IS NEW NAME FOR RECEIVING GIFTS

HATTIESBURG — The University of Southern Mississippi Foundation is the new name applied to the Foundation which is the receptacle for all gifts to the institution.

Formerly known as The Mississippi Southern Foundation, the name was changed at this third annual meeting of the board of directors, held recently in the University Commons, to coincide with the university status acquired on Feb. 27, 1962.

Ogletree, executive secretary of the USM Alumni Assn., Hattiesburg, re-elected secretary and treasurer.

Met three wonderful sports last week Ray Erouillette, Nick Colletti and Joe Pizzolotto of Chalmette, La. They own a small camp out in the La. marshes and let us use it last weekend. The camp is used by them each weekend. Good hunters they usually get their share of geese and ducks.

It's nice to have such friends. Mr. and Mrs. Clay Baxter left Tuesday for Dallas, Texas, where they will spend the Christmas holidays with their son.

J. C. wrote and said he would like to be here to do some hunting and fishing.

August Rauxet, Nicky Rauxet and yours truly killed the limit in geese and ducks last Saturday out in the marshes.

Messrs. Percy and Jessie Stern made a real catch of 100 speckles and 50 sheephead out in the marshes last weekend they were on the "Transition" with skipper "Pete" Peterson.

Trapani's Knock Knock basketball team was defeated by Bay Ice V. F. W. Post team 67-60. Frank Trapani sponsors a softball team, a bowling team and now a basketball team. His place of business is full of trophies won by his players. Those playing on the team are Donald Strong, Stacky Strong, Billy Breland, W. J. Cameron, Tommy Godwin, J. T. Ladner, Ronnie Artigues, Clayton Adams, Burt Taylor and others. Games are played every Monday and Friday at the V. A. Recreational Center.

The ladies 36-hole medal play tournament will end this weekend. Some hot matches have been reported and the girls are fighting hard for top honors.

The annual Christmas party at Pass Christian Isles Golf Club was held last Saturday night. It was a real affair and enjoyed by a large crowd.

Congratulations to those in charge.

Al Mercier an ardent fisherman had his first try at casting and trolling for green trout Sunday. Al is the father of Father Mercier, former assistant pastor of Our Lady of the Gulf Catholic Church who expects to visit here next week. Of course he expects to do some fishing while here with his father.

Rogers, Collins; R. E. Shoemaker, Brooklyn; James Sumrell Jr., Hattiesburg; Dr. Van C. Temple, Hattiesburg; James A. Wheeler, Laurel; and Joseph C. White, New Orleans.

In reporting on highlights of the current year, Ogletree reported that contributions, with 1719 individuals and organizations participating, amount to \$27,080.91. He pointed to the fact that December, the most productive month, has just begun, and it is possible that the 1962 contributions may exceed those of 1961, which amounted to \$33,408.25. These gifts ranged from \$1 to \$2,000.

Col. Roger B. Johnson reported scholarships recently awarded to Ronald Bell of Hattiesburg and Mary Virginia Risher of Laurel. Scholarships totaling \$12,698.30 have been granted, and one faculty fellowship for \$500.

The Board of directors continued the policy of supporting the administrative expense, and every penny contributed went for the designated purpose.

It is the policy of the Foundation to place all undersigned funds in to the general endowment fund. A ledger page may be established in the name of an individual or firm, provided their annual contribution is equal to a tuition remission scholarship each year, or \$221 at the present time. This may be made in a lump sum large enough for the interest to accrue to this amount, or more, each year.

## PATROL CAUTIONS AGAIN ON DRIVING DURING HOLIDAYS

# WHY MISSISSIPPI POWER IS OPPOSING CONSTRUCTION OF A FEDERALLY FINANCED GENERATING PLANT & TRANSMISSION SYSTEM

Recent articles, news releases, and advertisements appearing as statements and releases by the president of South Mississippi Electric Power Association, a Federally-financed REA super co-op, have publicly attacked Mississippi Power Company for opposing construction of their proposed \$16-million generating plant and transmission system. Power produced by this plant would be sold to four REA distributing co-ops who now buy their power at low wholesale rates from Mississippi Power Company and Mississippi Power and Light Company. They are Southern Pine, Dixie, Pearl River Valley and Singing River Electric Power Associations.

Mississippi Power Company has merely exercised its legal right to show before the Public Service Commission that public convenience and necessity will not be served by the proposed project.

This issue is not just a legal matter but also directly involves the pocketbook and future well-being of every Mississippian and especially the consumers of the four REA distributing co-ops proposing to purchase power from the super co-op. Listed below are seven of many reasons why this project is unnecessary and, in fact, a waste of taxpayers' money. All REA customers and other thoughtful citizens should consider the facts carefully.

1. The proposed \$16-million expenditure of taxpayers' money will not provide electric power to any person who is not now or who otherwise could not receive electric service.
2. The electric power produced by the super-co-op will cost much more, than the present cost of electricity purchased from Mississippi Power Company and Mississippi Power & Light Company, from whom the distributing co-ops have received all their electric service since they were organized in the late 1930's, and much more than such cost would be under current offers for continued purchase.
3. Service from the proposed plant will be far less reliable than that provided from the modern, high-voltage interconnected systems of the Mississippi Power Company and Mississippi Power & Light Company.
4. Taxpayers of the state and nation will have to lend the full \$16-million to build the original plant and subsidize the cost of this loan by making up the difference between the two per cent interest the cooperatives pay the U. S. Treasury for loans and the four per cent it costs our Federal Government to borrow money with which to make the loan.
5. The super co-op has testified that if this first plant is permitted, additional funds will promptly and regularly be sought from the public treasury to expand this and other co-op facilities.
6. Under Mississippi law (Sec. 9700, Miss. Code 1942) this super co-op shall be exempt from ad valorem taxes, and such association shall be exempt from franchise, privilege, net income and other excise taxes imposed by the State or any of its political subdivisions; it is also exempt from paying sales taxes on what it buys, including equipment and fuel, to build and operate this proposed plant. (Sec. 10116). The taxpayers of Mississippi will have to make up the taxes lost by these exemptions.
7. Electric power is a necessary part of our daily lives and its availability in abundant and economical supply is vital to Mississippi's future growth and development. The REA super co-op, by its loan agreement and mortgage, has surrendered to the REA Administrator in Washington the right for him to approve or disapprove many of the most important aspects of its operation, such as its electric rates and selection of its management and supervisory personnel. The only jurisdiction the Mississippi Public Service Commission has over the super co-op is in granting permission to build the plant and transmission system. The rates of the super co-op to the member co-ops are not subject to regulation by any state or Federal regulatory body — but only by the Administrator. The same Administrator, appointed by the President, also has complete control over the availability of additional funds for the super co-op. Mississippians should keep to an absolute minimum the exposure to Federal dictation and interference in their affairs, both political and economic.

## "LET NOTHING YOU DISMAY"

### THE CHURCH FOR ALL . . . ALL FOR THE CHURCH

The Church is the greatest factor in each for the building of character and good citizenship. It is a foundation of spiritual values. Without it, society is a chaotic mass of individuals. The Church, therefore, is the only institution that can give meaning and purpose to life. It is the only place where we can find the love and support we need to face the challenges of life. The Church is the only place where we can find the peace and comfort we need to overcome our fears and doubts. The Church is the only place where we can find the strength and courage we need to stand up for what is right and just. The Church is the only place where we can find the hope and faith we need to believe in a better future. The Church is the only place where we can find the love and support we need to live our lives to the fullest. The Church is the only place where we can find the peace and comfort we need to overcome our fears and doubts. The Church is the only place where we can find the strength and courage we need to stand up for what is right and just. The Church is the only place where we can find the hope and faith we need to believe in a better future. The Church is the only place where we can find the love and support we need to live our lives to the fullest.

One of a million carolers. And on Christmas Eve she will bring comfort, reassurance, joy to many.

Mrs. J. is blind. She has never seen the carolers . . . but eagerly she listens for their arrival.

Mr. H. is an invalid. His nurse invites the boys and girls in and serves them cocoa. Mr. H. loves their happy smiles as well as their joyous voices.

Little Paul R. broke his leg last Saturday. That's why he's not caroling this year. But they'll be around to sing "Silent Night" under his window. That one is Paul's favorite.

When you hear the carolers on Christmas Eve, pause and consider the Love that inspires their singing. That Love was born in a Bethlehem stable one holy night centuries ago.

## DETAILS OF '63 FEED GRAIN PROGRAM ANNOUNCED

The 1963 voluntary feed grain program will generally follow program provisions for 1961 and 1962 crops by giving feed-grain producers an opportunity to participate in the program by reducing acreage and to receive payments, Orville E. Sackett, Chairman of the Mississippi Agricultural Stabilization and Conservation State Committee, has announced. As in 1962, the program will apply to corn, grain sorghum, and barley.

By participating, farmers will receive diversion payments for acreage from production to conservation use and in addition they will receive price support payments on the normal production of the 1963 feed grain acreage. They will also be eligible to obtain price support loans and purchase agreements for the actual 1963 feed grain production. Rates for diversion payments are somewhat smaller than in previous years, but this decrease will be more than offset for most farmers by the price support payments.

A major change from previous programs, Mr. Sackett emphasized, is that to be eligible for any payments or price support on any of the three feed grains included in the program, the farmer must divert the total acreage for which he signs up.

The chairman explained that farmers may take part in the program by reducing the total of their 1963 feed grain acreage (corn, grain sorghum, and barley) by at least 20 percent. The maximum diversion is the higher of 40 percent of the base acreage or 25 acres, provided this is not more than the base acreage. The acreage of the three crops (1959-60 average acreage, as adjusted) will be combined into one total feed grain base for each farm, and the farmer may choose to divert one of the feed grains, with the diversion payment being made at the per-acre rate applicable to the particular grain or grains diverted.

Farmers who have planted their 1963 barley crop this fall will be able to take part in the 1963 program by reducing their total feed grain acreage by at least 20 percent.

Price support to participating farmers will be available partly through loans and purchase agreements and partly through the price support payment. Loans and purchase agreements will reflect a national average price of \$1.02 per bushel on corn, \$1.62 per bushel on grain sorghum, and 79 cents per bushel on barley. In addition, price support payments will be made on the normal production of the 1963 feed grain acreage at the rate of 18 cents per bushel on corn, 29 cents per cwt. (16 cents per bushel) on grain sorghums, and 14 cents per bushel on barley.

Oats and rye are not included in the 1963 feed grain program.

## AS/4 HAROLD G. NETTO SERVING WITH ARMY IN WEST GERMANY

RAD. HENRIKSSON, GERMANY (AP) — Army Specialist Four Harold G. Netto, whose wife, Virginia, lives at 1800 Vermont Blvd., Cleveland, Ohio, is serving with the 14th Armored Cavalry Regiment, 2nd Reconnaissance Squadron which guards the northwestern border of the West German border in Europe.

The members of Specialist Netto's unit keep the border under constant surveillance through the use of jeep-mounted patrols and observation and listening posts.

Netto is assigned as a mechanic in the Squadron's Headquarters Troop in Bad Hersfeld, Germany.

He entered the Army in March 1948 and was stationed at Fort Knox, Ky., before arriving overseas in October of this year.

Specialist Netto, son of Mr. and Mrs. Harold C. Netto, 221 Boardman Ave., Bay St. Louis, attended Bay High School in Bay St. Louis.

thus no payment is provided and no reduction in acreage is required for price support eligibility. As in 1962, the national average supports for these two crops for 1963 will be 62 cents per bushel for oats and \$1.02 per bushel for rye.

Participating farmers will be able to put all of their 1963-crop corn, grain sorghum, and barley under price support loans and purchase agreements. This is a change from earlier programs, which limited support to the normal production of the 1962 crop.

Farmers may receive part of their acreage diversion payment at the time they sign up to participate in the program. The sign-up period for the 1963 feed grain program will be early next year and will be announced later. Chairman Sackett said.

## MRS. C. R. BEYER HEADS HANCOCK ONE-MONTH HEART FUND DRIVE

Mrs. C. R. Beyer, Bay St. Louis, will again head Hancock's one-month drive to raise funds for Mississippi's year-round fight against heart disease. Named Hancock County Heart Fund chairman this week, Mrs. Beyer will mobilize the community's resources in a concentrated 28-day campaign which opens February 1 and climaxes on Heart Sunday, Feb. 24. Mrs. Beyer's appointment is announced this week by John Hampton Stennis of Jackson, State Chairman, and J. E. Kissire of Gulfport, District Chairman of the Heart Fund.

In accepting the county heart fund chairmanship for the 8th consecutive year, Mrs. Beyer points out that heart disease isn't selective in its victims but hits old and young alike to cause more than half of all deaths in this state.

"Heart and blood vessel diseases reaped 72 Hancock County lives last year," she declared. "That's why we feel that people in this community will more than meet their fair share of Mississippi's 1963 Heart Fund of \$205,000."

"Support for the heart association three-way program of research, education and community service is the best way to whip heart disease," Mrs. Beyer adds. "This year, 46 per cent of all heart dollars invested in the Mississippi Heart program is being spent for research and training. Of the anticipated \$205,000 state 1963 Heart Fund, 39 per cent is budgeted for research while 38 per cent will go to public and professional education and to community service in behalf of heart patients and their families."

## MISSISSIPPI SCRAPBOOK

Mississippians are constantly seeking data on their state to use in school essays (both inside and outside the state) panel discussions and various other ways.

The State Chamber of Commerce in its fine booklet, "Let's Talk Mississippi" (one dollar per copy) has made a major contribution in keeping such people informed.

"Mississippi Magic," a publication of the Mississippi Agricultural and Industrial Board, is helping, too, judging by the requests which come in every day for adding new names to the mailing list.

## IMPORTANT SOCIAL SECURITY INFORMATION

Although the Social Security act was enacted 27 years ago, this past August, there still is an occasional employer who fails to file Social Security reports of wages for his employees, according to Jerome H. Drane, District manager at the Gulfport Social Security Office.

At the present time, all employment in commerce and industry is covered by Social Security, and there is no requirement that an employer have a certain number of employees. For example, a carpenter might employ just one helper; if so, he must deduct Social Security tax and report the earnings for Social Security purposes.

The employer is required to keep a record for each employee of wages paid and taxes withheld. He should copy into his permanent records the names and Social Security numbers of his employees exactly as they appear on their Social Security cards. At the close of each calendar quarter the employer must prepare a quarterly return on form 941. The calendar quarters covered by these returns and the dates on which the returns and tax payments are due are as follows:

QUARTERS  
January, February, March, April, May, June, July, August, September, October, November, December.

DATE DUE  
April 30, July 31, October 31, January 31.

The return must be filed with the District Director of Internal Revenue for the district in which the employer's principal place of business is located. The Social Security tax must be paid with these returns. For 1962 the rate is 6 3/4% collected from the employee, matched by 3 1/8% contributed by the employer. Beginning 1963, the tax rate is scheduled to be increased by one-half of 1% for both employee and employer.

It is important that wages be reported correctly and on time, since the old-age, survivors, and disability insurance benefits payable under the Social Security Act are based on these individual worker's Social Security earnings record.

Mr. Drane invites anyone desiring more information about the reporting of wages for Social Security purposes to get in touch with his office. The Gulfport office is located at 1022 32nd Avenue, and is open between the hours of 8:30 A. M. and 4:30 P. M. Monday through Friday.

## SENATOR STENNIS SUPERVISOR OF THE YEAR

Senator John Stennis supervised the "Livestock Kind of Loan" for soil conservation projects in north Mississippi. He supervised a two-day tour of projects in that area Tuesday and said when they are finished they will increase the productive capacity of the land and boost considerably the economy of the community and the state.

Senator Stennis supervised projects in Holmes, Grenada, Tallahatchie, Panola, Lee, and Clay counties.

In a prepared statement, Stennis
